INTRODUCTION

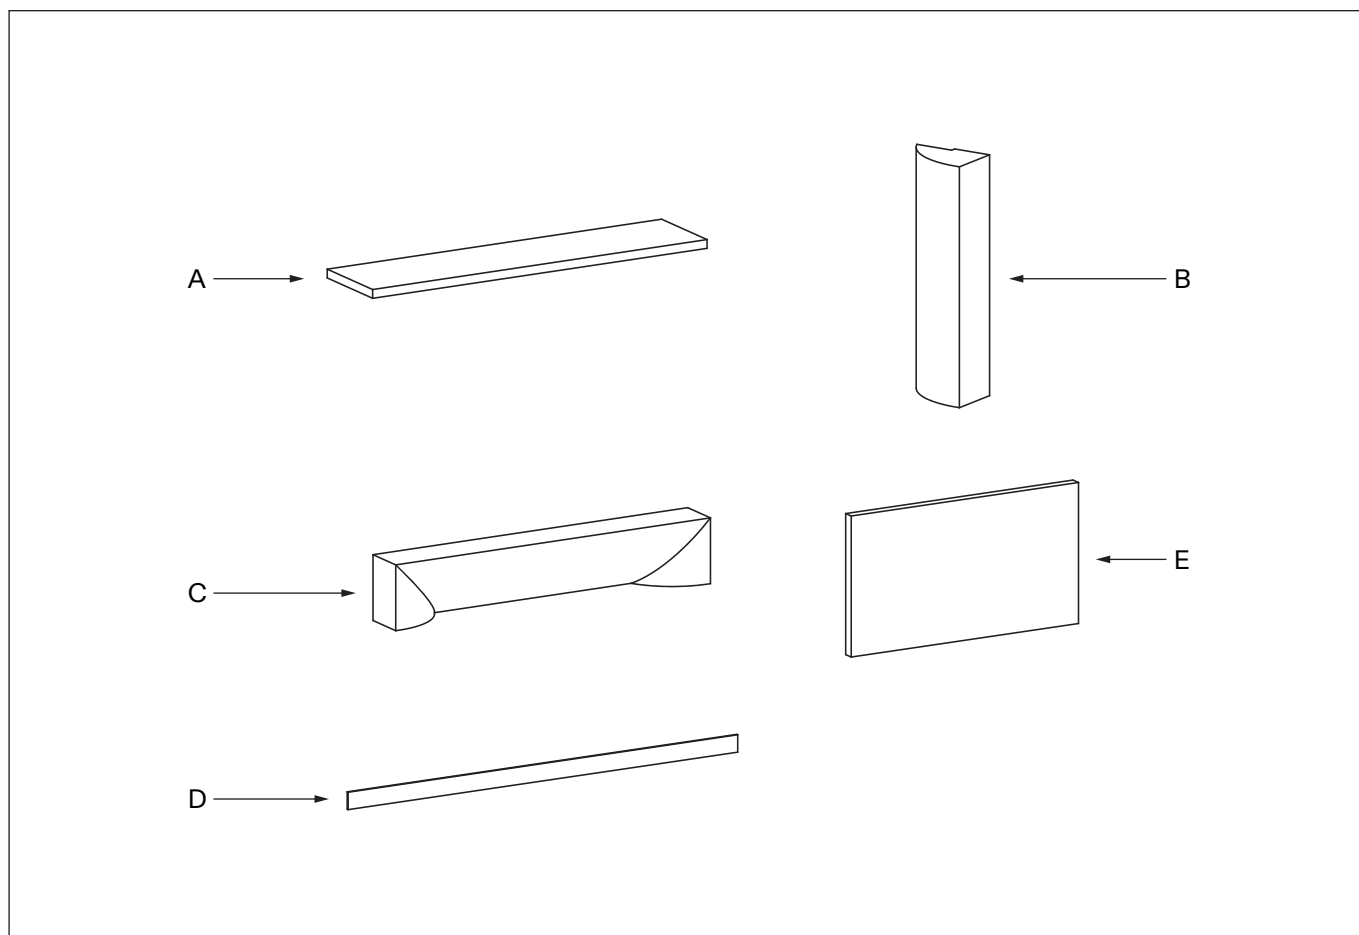

Thank you for purchasing the Fire Surround & Hearth Range.

Please read this guide carefully before installing, using and cleaning this product, and retain it for future reference.

If you have any queries in relation to this product or guide, please contact our Customer Service team on 020 3370 4057.

PRODUCT KIT

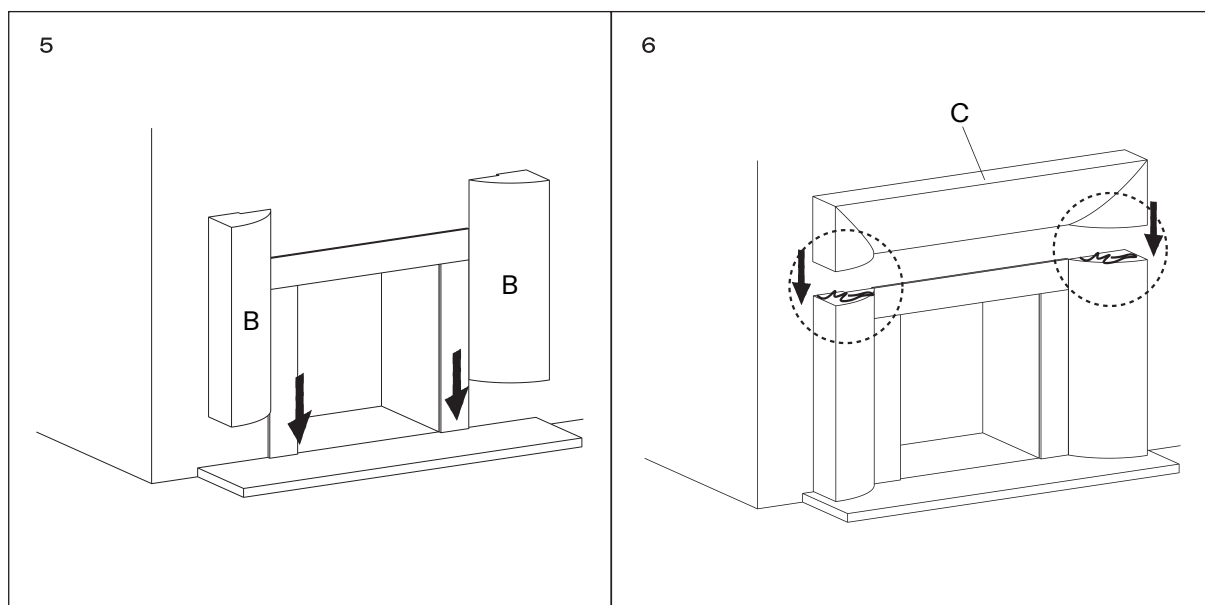

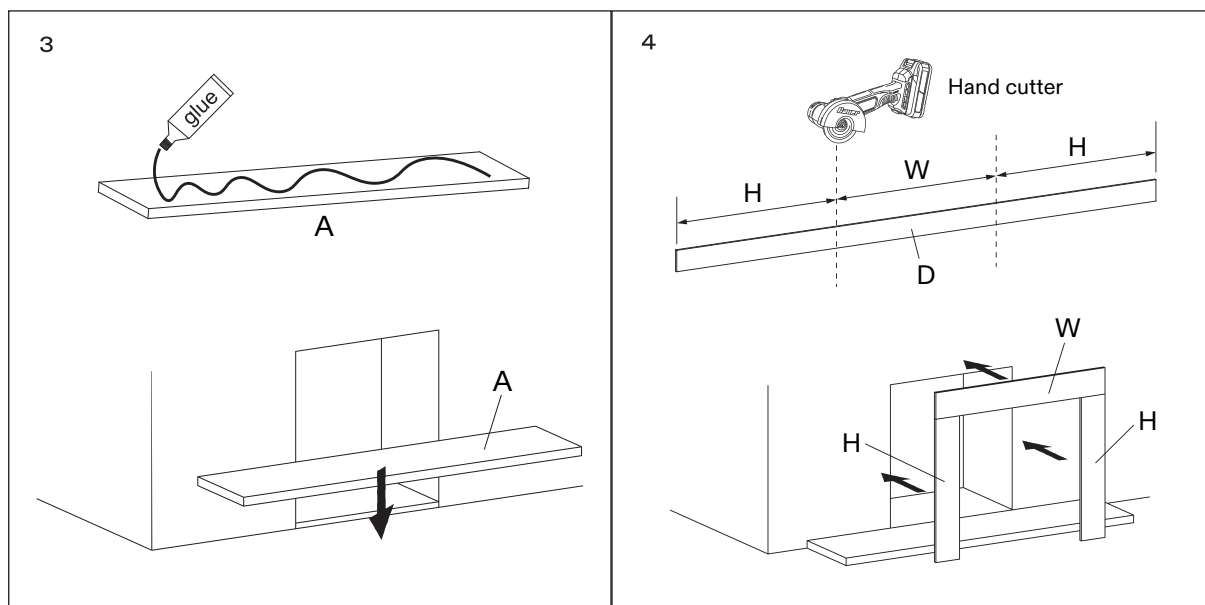

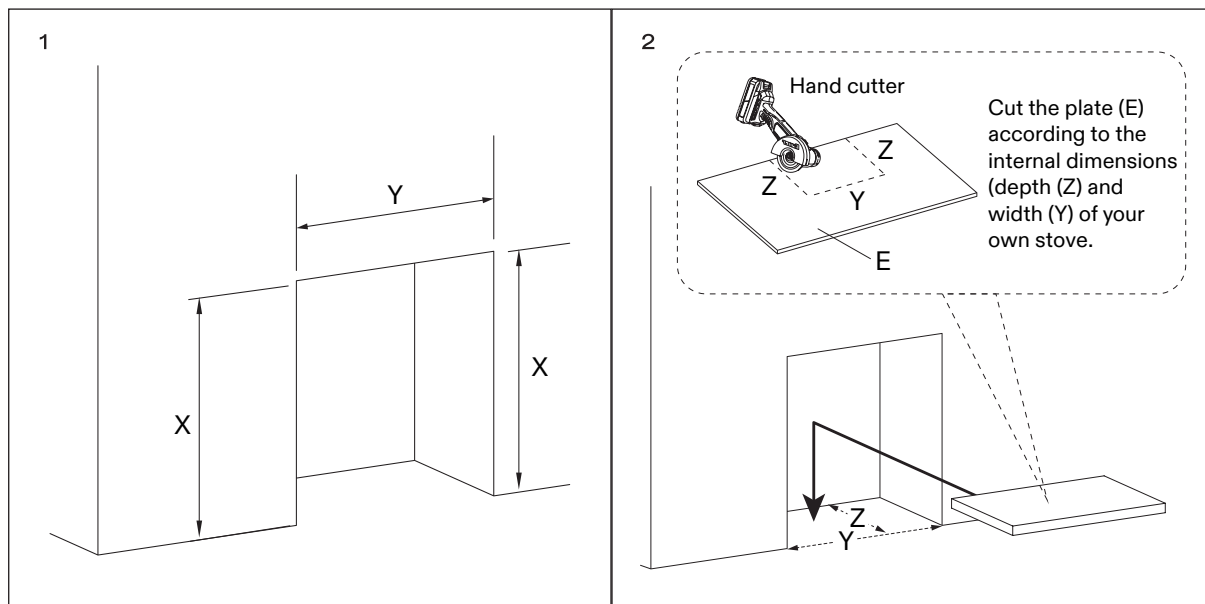

- A** Outer Hearth
- B** Fire Surround Leg (x2)
- C** Fire Surround Top
- D** Back Slip
- E** Inner Hearth

INSTALLATION STEPS

To ensure a flawless fit and finish, this product must be installed by a fully qualified fitter.

- 1** Measure the height and width of the fire surround legs and top.
 - 1.1 If there is an existing recess in your wall, we cannot know its exact size in advance. We will adjust the back slips to fill the gaps between the fireplace and wall.
 - 1.2 If your house is under renovation and no recess has been made yet, you can dig the recess strictly according to the inner dimensions of the fireplace shown on our drawing. The opening will perfectly fit the fireplace, so the three back slips will not be needed.
- 2** Using a hand cutter, cut the inner hearth to the depth and width dimensions of the internal stove. Apply glue to the bottom of the inner hearth and secure it into the desired position.
- 3** Apply glue to the bottom of the outer hearth and secure it into the desired position.
- 4** Using the measurements from Step 1, use a hand cutter to create the desired sizing for the integrated back slips. Once cut, apply glue to the back and secure into the desired position.
- 5** Apply glue to the bottom of the fire surround leg (x2) and secure to the outer hearth in the desired position.
- 6** Apply glue to the top of the fire surround leg (x2) and secure the fire surround top in position. Wipe away any excess glue; the installation is now complete.

CARE INSTRUCTIONS

To clean and maintain the flawless finish of this product, please follow the below instructions. Improper maintenance will void your product guarantee.

- ✓ Wipe the surface gently with a soft microfibre cloth.
- ✓ Clean 1 to 2 times per week to keep the product dry and clean.
- ✓ Use pH-neutral stone cleaner and room temperature water.
- ✓ Ensure that your fire surround and hearth are professionally sealed every 3 to 6 months.

- ✗ Do not use acidic cleansers.
- ✗ Do not use abrasive, sharp or highly pigmented cloths.
- ✗ Do not splash cold water on the hot marble surface.
- ✗ Do not leave water standing on the marble surface.
- ✗ Do not leave items directly on the basin surface - use coasters or trivets to avoid leaving ring marks and stains.
