LUSSO

HOW TO PAINT YOUR LUSSO PRODUCT?

OPERATION PROCESS

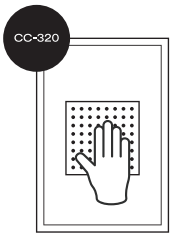

MATERIAL KIT

Installation manual x 1
Sandpaper CC-240 × 1
Sandpaper CC-320 × 1
Sandpaper CC-600 × 1

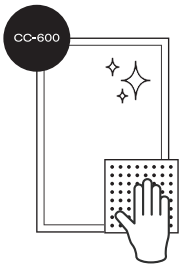

1

Use the CC-240 sandpaper to sand the surface of your product. Sand the top surface until there is visible sand marks in the surface. Please pay attention to sanding the corners.

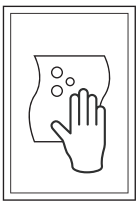

2

Use the CC-320 sandpaper to sand the product. This time you need to make sure you remove the sand marks from the surface.

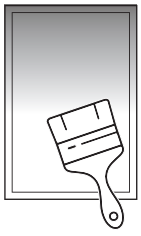

3

Use the CC-600 sandpaper to sand the product. This time you need to make sure the surface is very smooth. Make sure you get into the corners.

4

Clean the product with a damp cloth and be sure to remove any dust particles. Dry the product with a soft cloth.

5

You are now ready to paint your product. We recommend using Egg Shell Paint.
