

LUSO

CHOOSING A LEFT OR RIGHT HANDED PRIVACY DOOR HANDLE

Stand on the side where the door opens away from you (push side)

Check the position of the hinges:

If your hinges are to the left:

Choose a left hand door handle

If your hinges are to the right:

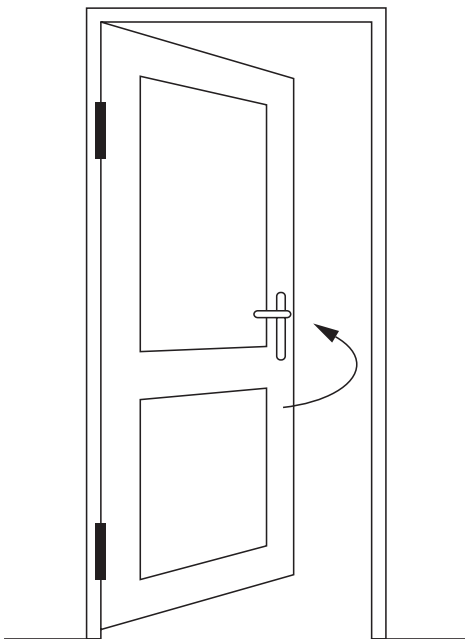

Choose a right hand door handle

But what if my door opens inward (into the room)?

Follow the same rules — assess from the push side (i.e., outside the room). The direction of the swing doesn't change the hinge logic — you just need to orient yourself properly.

LEFT HAND HANDLE

RIGHT HAND HANDLE
